GREETINGS

from the City of Tulips

THERE is a time each year when the Tulip takes command of the clean, thrifty city of Holland, Michigan—a time when the festival spirit reigns and hundreds of thousands of people invade this lake-shore community to drink in the beauties of spring-time's most welcome flower. For here the Tulip is to be seen in profusion such as nowhere else in America,

—a city bedecked in the glamorous color of millions of Tulips, presenting a sight that visitors find entrancing and completely captivating.

To entertain its avalanche of guests, Holland provides a daily round of festivities. The city goes "native" and dons its ancestral garb, everywhere are men and women, girls and boys, in typical Dutch dress, each of different pattern, yet all a part of an authentic picture—a gay, moving picture that provides for the Tulip a most appropriate and picturesque background. So highly regarded is the flower that has made Holland famous, that nothing cheap or artificial is allowed to mar the festival; the Tulip, alone, is Queen, and to its glory the city of Holland dedicates itself every year in May.

Holland's Burge-
meester, who is
here shown in his
official Dutch dress,
asks us to extend
his greetings to the
many recipients of
this catalog, and to
bid you "welkom"
to Holland's Tulip
Festival.

Nelis Nurseries play a quiet but important part in this annual Tulip festival. Not only do we supply the millions of Tulips which are to be seen throughout the city of Holland, but our mass plantings of over 500 varieties are the chief

point of interest to the thousands upon thousands of visitors. In its extensiveness of varieties and gorgeousness of color, the Nelis Tulip Farm is undoubtedly the most colorful mass display of Tulips to be seen anywhere in the world.

Dear Customer:

The last reports reaching us from the Netherlands stated the condition of the Dutch bulb growers, and the further drastic reductions of their bulb fields, in order to make more land available for the production of food. Our correspondent reported that many varieties of Tulip bulbs, well known to the American consumer, have entirely disappeared, having been fed to the cattle.

However, the year 1941 was successful as a growing year for Tulips in Michigan, and we were able to extend our own plantings, also effecting a reduction in price of several Tulip varieties, in spite of rising costs connected with our operations.

During the past war years we have reduced our own listing of Tulip bulbs, because our stock of the varieties excluded is small, and of insufficient quantity for listing in this book. These varieties are for sale during the Tulip Time Festival in May (blooming time) as in the past, and for those who are specific in their requirements, we will mail on request our listing of over 500 varieties of Tulip bulbs. However, this booklet is primarily printed for field sales, as it carries no illustrations, and has very short color descriptions.

We would also like to draw your attention to our extended listing of new and better Daffodils, containing the widest possible selections. They are ideal for permanent planting, and are grown under our own supervision on our nurseries. We are again listing Hyacinths, but the quantity this year is small, and prospects of additional supplies doubtful.

We wish to take this opportunity to thank our customers, for by your patronage you make it possible for us to continue and preserve a host of splendid Tulip varieties which are now probably destroyed in the Netherlands, but which with care may be grown and increased in Michigan.

Yours very truly,
NELIS NURSERIES, INC.

GUARANTEE

Except where clearly stated otherwise in this catalog, we unconditionally guarantee every bulb we ship out to be strictly top size, and to be absolutely true to name. All bulbs shipped by us will grow and bloom under ordinary conditions. We have, however, no control over unfavorable weather or soil conditions, improper planting, neglect, moles or mice, and therefore cannot assume responsibility after they reach you. Stock not reaching you in first class condition should be reported within 10 days after receipt, and will be replaced free of charge if so received. After ten days it is mutually agreed that stock is satisfactory. Do not return bulbs or plants unless so instructed by us.

LATEST NOVELTIES

It has been our policy for years to show to the American public at our extensive display fields, the latest varieties available in Tulip bulbs. Our 1942 listing is as nearly complete as can be desired, and contains varieties which probably will not be handled by the average seedsman or grower for another decade.

Practically all varieties listed have been recognized as outstanding in either Haarlem, Netherlands, or London, England. Those marked F.C.C. received a First Class Certificate; those marked A.M., an Award of Merit.

Nelis Giant May-Flowering

The modern Giant May-Flowering Tulip is the result of three separate experiments of Tulip breeding, formerly classified as Darwin, Cottage and Breeder Tulips. Through the interbreeding of the three before-mentioned classes, the terms Darwin, Cottage (or Hybrid) and Breeder Tulips still listed in some catalogs, have become so confusing that even among the best informed there are many clashes of opinion. Since the modern Giant May-Flowering Tulips contain the blood of all the three preceding crosses in proportions unknown to even the plant breeders themselves, it seems useless to maintain this class distinction any longer, as they are both scientifically and practically absolutely meaningless. We, therefore, will list them from now on as Giant May-Flowering Tulips. The term May-Flowering is based on our Michigan climate, and in southern locations the blooming period will, of course, be earlier. In revising our list for 1942 we have eliminated many varieties, which we have considered to be surpassed by later introductions.

(At the close of the season we may be sold out of a certain variety, therefore we wish to reserve the right to substitute with varieties of the same color if possible. Order early to receive the varieties named.)

Novelty Parrot Tulips

Here is a complete list of the most outstanding novelties in Parrot Tulips. These new Parrots, in contrast to the older varieties, all have heavy firm stems to keep the flowers erect, and are a valuable addition to any garden. These new types, strange to say, have all sported from the more popular varieties long known to the flower lover. Most everyone has admired Parrot Tulip Fantasy, which variety is by far the best known of this new type, and which has sported from the well-known Darwin Tulip, Clara Butt. They are so entirely different from all the other flowers that they provoke the startled admiration of all who see them.

New and Splendid Giant Flowered

This new race, which blooms about eight days earlier than the Darwin type, is becoming better known every year, and during our annual Tulip show more and more people are becoming interested in it. The average height is shorter than the Darwins, but they are of extremely sturdy growth, and therefore are excellent for bedding purposes. The varieties we have listed here are among the best.

Late Flowering Double Tulips

These double varieties are extremely showy, with flowers as large as Peonies, and come in an extraordinary range of colors. They have created a remarkable interest, and in the past nearly all the available supply has been bought by our Tulip Time visitors, who were able to see them in bloom. As real novelties we want to recommend them for exhibition or show purposes. Being of very latest introduction, quantity of bulbs is limited, and early orders are more apt to insure delivery.

BOTANICAL TULIPS

These wild Tulips come in lovely odd shapes, many with reflexed petals and curiously twisted and reflexed foliage. They belong in the rock garden where they thrive and increase if left in the ground from year to year. Plant them in groups of six to twelve bulbs among the rocks in fairly well-drained pockets. We have eliminated all varieties of inferior and poor blooming qualities, and only those varieties that have given satisfaction under American conditions have been listed.

	Three	Doz.	100
CHRYSANTHA. 8 inches. One of the smallest species in existence; a real novelty. Color rich yellow with rose exterior	\$0.45	\$1.60	\$12.00
CORNUTA STENOPETALA. 15 inches. Graciously formed flowers of scarlet and gold. The long narrow and twisted petals give an effect which is not seen in any other Tulip. Held upright on a tall, stiff stem; a most interesting species, having a very long blooming season	1.00	3.50	
EICHLERI. 10 inches. Crimson-scarlet shaded orange, with glittering black center marked with gold. Very large flower. This variety will outshine a great many of our cultivated Tulips. Native of Turkestan. Highly recommended50	1.75	13.00
FLORENTINA ODORATA. 15 inches. Deep golden yellow inside; outside yellow to buff. Long pointed petals of unusual shape35	1.20	8.50
KAUFMANNIANA. (The Water Lily Tulip). 6 inches. Creamy white tinged rose red; flowers attractive, with reflexing petals. One of the earliest and most free bloomers70	2.25	
MARJOLETTI. 14 inches. Soft primrose with a carmine-red border; the flower is held on a strong and straight stem. Native of Savoy. Blooms second week in May45	1.50	11.00

	Three	Doz.	100
MADAME LEFEBER. 15 inches. A most intense orange-red. This variety is considered to produce the largest flowers of any variety, for the petals measure $2\frac{3}{4}$ by $1\frac{1}{2}$ inches, and when normally opened is eight inches across. A most valuable addition. On account of its tremendous size, plant in shaded and protected spot	\$1.50	\$5.00	
PRAESTANS. 18 inches. The tallest and largest of the Praestans type. Flowers are bright vermilion-red, produced four to five per plant at one time	1.10	3.75	
PRIMULINA. 9 inches. White with pink border, and recurved petals, resembling a dainty water lily. A scarce and unusual variety. Flowers open only on cloudy days and in the evening, and do not open in full sun like other varieties	2.25	7.50	
SPRENGERI. 12 inches. Yellow with narrow red border. Late bloomer which blooms after the Darwin Tulips40	1.35	10.00
TUBERGENIANA. 16 inches. Received an Award of Merit from the Royal Horticultural Society. Brilliant salmon-orange of tremendous size. This variety is outstandingly beautiful, but extremely scarce. \$5.00 each.

Narcissus

In order to have a beautiful bulb garden, Narcissus should be planted very freely. They thrive in practically any climate in the United States, and are not only excellent for outdoors, but millions are used every year for forcing indoors. Their graceful form, beautifully shaped trumpets and cups, and the long straight stems have made them favorites for cut flower purposes with every American gardener. We have added many new varieties to the old favorites. For a real revelation you should try some of the new types. They are really exquisite.

In order to understand the different types coming under the Daffodil classification, the explanation below should be read.

The term *Trumpet Daffodil* means that the trumpet is as long or longer than the perianth segments, regardless whether the color is lemon, yellow or white.

The term *Incomparabilis* means that the cup or crown measures from one-third to nearly the length of the perianth segments.

The term *Leedsii* means that the perianth is white, the cup is short, either white, citron, or sometimes pink or apricot.

The term *Barri* means that the cup or crown measures less than one-third the length of the perianth segments.

The term *Jonquil* means that the foliage is very long and narrow, or round, in other words, rushlike; the flowers buttercup-yellow, small, but very fragrant.

The term *Poetaz* means the bunch-flowering type, producing from six to twelve flowers per stem, and in all cases deliciously fragrant.

Albatross. (*Barri*.) White perianth, pale citron-yellow cup, edged orange-red. Received a First Class Certificate, but it is now an old variety. 35c per 3; \$1.15 per 12; \$8.00 per 100.

Archeron. (*Barri*.) Outer petals open cream color, which turn almost pure white as the flower ages. The cup is of a deep orange color, a very strong and long lasting variety for outdoor planting. Received an Award of Merit. 65c per 3; \$2.25 per 12; \$16.00 per 100.

Beats All. (*Incomparabilis*.) A novelty of recent introduction, perianth of light sulphur-yellow, with a flaring cup of chrome-orange, and rim of deeper orange at brim. An outstanding late and free-flowering variety of robust growth. 80c per 3; \$2.60 per doz.; \$19.00 per 100.

Croesus

Lord Wellington

Beersheba. Perianth and trumpet of magnificent proportions. Sturdy foliage and stem, height 20 to 22 inches. Its color is pure white, and expressive of purity in the highest sense. Those who are forming collections of fine Narcissus rate Beersheba at the top of the large white Trumpets. Received an Award of Merit, and a First Class Certificate. \$2.00 each.

Bonfire. (*Barri*.) A remarkable flower, entirely distinct, of perfect design and habit. Pure primrose perianth, with a cup of deep fiery orange, edged deep blood-red. Outstandingly beautiful among lower priced varieties. 60c per 3; \$1.90 per doz.; \$14.00 per 100.

Campernelle, Double. (*Jonquil*.) Ideal for cutting, for this variety has strong stems that bear from two to three small, fragrant flowers of golden yellow. About 13 inches tall. 40c per 3; \$1.35 per doz.; \$9.00 per 100.

Campernelle, Single. (*Jonquil*.) A tiny, fragrant Daffodil of golden yellow, with tips of pointed, grasslike foliage reaching above the flower. A delightful blossom with overlapping broad petals making a nicely rounded perianth; frequently blooms three to a stalk. 35c per 3; \$1.05 per doz.; \$7.00 per 100.

Carlton. (*Incomparabilis*.) A beautiful variety that is destined to become very popular when more widely known. Broad, overlapping flat perianth, with a large expanded cup frilled at brim, the entire flower of a uniformly soft yellow. A magnificent plant of great vigor, very free-flowering, early, of long-lasting quality, excellent for exhibition. This variety received an Award of Merit. \$2.00 per 3; \$6.75 per doz.; \$50.00 per 100.

Cassandra. (*Poeticus*.) Perianth white, cup canary-yellow, rimmed bright red; one of the newer Poeticus varieties. Award of Merit. 35c per 3; \$1.15 per doz.; \$8.00 per 100.

Cheerfulness. (*Double Poetaz*.) A double form of the famous cluster-flowering Daffodil. Received an Award of Merit; splendid for the garden, late blooming, very fragrant. Frequently called the "Gardenia Daffodil." 40c per 3; \$1.35 per doz.; \$10.00 per 100.

Croesus. (*Incomparabilis*.) Perianth light canary-yellow, opening flat, with broad, fluted cup of rich orange to base; free flowering and desirable in every way. Received a First Class Certificate as well as an Award of Merit. 40c per 3; \$1.35 per doz.; \$9.50 per 100.

or Daffodils

Crowned Beauty. (Barri.) A novelty Narcissus, with a golden yellow perianth, the long petals producing a starlike effect. The deeply frilled cup of dark orange blends to a golden yellow at the throat. A large, open and airy flower. \$1.80 per 3; \$6.00 per doz.

Diana Kasner. (Barri.) This variety is considered one of the most valuable of recent introductions, and cannot be recommended too highly. Pure white perianth, with a large fluted yellow cup, frilled blood-red, very free-flowering and an excellent forcer. 40c per 3; \$1.40 per doz.; \$10.00 per 100.

Emperor. (Yellow Trumpet.) Perianth deep primrose-yellow, with rich yellow trumpet, large flowers of remarkable substance. 40c per 3; \$1.35 per doz.; \$9.50 per 100.

Evangeline. (Leeds.) Tall variety, nearly pure white, creamy cup. Fine for naturalizing. 35c per 3; \$1.05 per doz.; \$7.50 per 100.

Firetail. (Barri.) A new variety of importance, broad-petalled, creamy white perianth, and large orange cup with scarlet-orange frill. Received an Award of Merit, and First Class Certificate. 80c per 3; \$2.75 per doz.; \$20.00 per 100.

Francisca Drake. (Incomparabilis.) We cannot adequately describe the beauty of this distinctly new type. The pure white perianth petals are of unusual substance, an inch and a half wide, and tinted gold at the base, which shows through on the outside; the cup, wide and deep, is golden yellow at the base, changing gradually to flame-orange at the densely frilled edge; the flowers are held well above the fine foliage, giving the effect of white seagulls taking flight. Strong-growing and very free-flowering; received Award of Merit. 75c per 3; \$2.50 per doz.; \$18.00 per 100.

ROBT. SYDENHAM. (Trumpet Daffodil.) A superb, heavily frilled trumpet of beautiful golden yellow flower shows strength, and is beautifully proportioned. Highly desirable for exhibition and garden purposes	1.10	3.75	
SATURNUS. (Barri.) Large, pure white perianth, and an unusually beautiful, deeply frilled, deep orange cup, producing a glorious and striking effect against the white background. Strong flower and unquestionably one of the finest we offer in the latest varieties. Received the Award of Merit as well as First Class Certificate	1.50	5.30	
SIRENE. (Barri.) A lovely novelty with a large, well shaped perianth of cream-yellow with an enormously large, flat crown of brilliant orange, shading to orange-yellow at the center. A strong grower, free blooming	1.55	5.50	
SPARKLING EYE. (Poetaz.) To us the most outstanding variety of the bunch-flowering type, which is in great demand among growers. White outer petals, cup glittering scarlet; free blooming and fragrant. Blooming with the Darwin Tulips, it prolongs the blooming season of Narcissi. Recently received an Award of Merit	1.45	5.00	
THALIA. In addition to a peculiar attraction at first sight, this flower leaves one with an impression that it is white, yet it is a whiteness that is not white. The recurving petals and the angle of the three trumpets are unlike the conventional short-cupped Daffodil. The stem is dark green, round and reedlike thin. Called "Orchid-Flower" Narcissus80	2.65	19.25
THE GOVERNOR. (Barri.) Beautiful overlapping petals of perfect symmetrical proportions, but seldom seen in Daffodils. The color is white, changing to ivory in center, and the fringed cup of bright red makes a beautiful contrast against its pure white background. An outstanding novelty, which we received direct from the originator, and are the first to offer to the public.	1.65	5.75	
THE PRINCE BARRY. (Poeticus.) A new novelty of the outstanding new Poeticus type. Perianth of purest white, wide overlapping petals of fine symmetrical form. The large, flat cup of golden yellow is bordered with a distinct dark red, and has a green center.	1.40	4.75	
TREDORE. (Barri.) One of the most striking of the new novelties. Perianth of soft moonlight-yellow and strikingly symmetrical open cup of fiery red, with a soft salmon flush extending to the throat. Received an Award of Merit	2.10	6.75	
TWINK. A double of the semi-full type, with alternating petals of soft primrose and clear orange, and so arranged as to give the flower a most attractive appearance. Very free flowering and hardy65	2.10	15.50
VAN WAVEREN'S GIANT. An enormous flower with deep yellow trumpet, perianth of pale yellow with outer petals exceptionally broad, and inner ones usually slightly twisted, making it very graceful. Received a First Class Certificate80	2.60	19.00
VON SION. (Double.) The well known double golden yellow flower, whose bulbs of vigorous growth are now again available40	1.25	8.50
XENOPHON. (Poetaz.) This variety produces large flowers of deep yellow, with large orange cup, free flowering and delightfully fragrant. Received an Award of Merit as a variety for cutting60	2.00	15.00
YELLOW POPPY. (Incomparabilis.) A fine new introduction, a well proportioned perianth of good size, and flaring trumpet. Perianth of deep yellow, and cup of the same lovely shade. Beautiful, and recommended for garden or for cutting40	1.35	9.00

Special Offer in SEEDLING NARCISSUS

We were fortunate in buying from one of the best hybridizers in the world a limited number of extraordinary seedlings, as ill health forced the originator to discontinue his labors.

Each individual bulb is of high enough standard to produce a variety of its own, and bear its own name. Each plant is different from the others, practically all having red-orange or scarlet centers, and are the finest seedlings we have ever seen, and therefore we cannot recommend them too highly. Here is your chance to enjoy something really so new and surprisingly beautiful for so little; besides, Narcissi make a permanent planting for you to enjoy for many years.

for Naturalizing

Suitable for Garden Display,
Woodland Planting or Cutting.

Practically any soil has been found suitable and they are grown equally well in the open as among trees and in woodland. Contains a mixture of Large Trumpets, Leeds, Barri and Poeticus types, making a mixture that cannot be beaten for value, and worth much more than we charge for them. Plant at least eight inches deep, but avoid places where water may collect at any time, as they like drainage. Try to plant before October 15th, or shortly thereafter, but place your order early, as the demand is increasing for these bulbs at this special low price we have adopted, and we cannot take orders for less than 50 bulbs.

Dutch Crocus

FALL BLOOMING CROCUS

These Crocus are different from the spring-blooming Dutch Crocus, and bloom during the month of October, while their foliage and seed pods as well, are produced the following spring. They are perfectly hardy, and establish and multiply easily. Order EARLY. They should be planted in September. Try this Crocus for something unusual, and entirely different.

Zonatus. Rose-lilac and a very free bloomer.

A very satisfactory variety, which may be used for indoor blooming. They will bloom dry, without soil or water, and after they are through blooming they may be planted in the garden where they will establish themselves without effort. 75c per doz.; \$5.50 per 100.

Sativus. Large, purplish lilac flowers, feathered violet, with showy orange stigmata. Sweetly scented, and very scarce. 90c per doz.

DUTCH CROCUS

A new strain of Giant-Flowering Crocus. One of the first to bloom after the snow has disappeared. Very desirable in groups on the lawn, and if used for edgings, where the foliage can remain, they are almost permanent. Scarce.

MUSCARI (Grape Hyacinth)

The foliage of this plant is very similar to that of Scilla, but the flowers are of entirely different form—grape-like clusters closely set, and wonderful for use as a cut flower, splendid for naturalizing. Height 15 inches.

Alba. White. 75c per doz.; \$5.50 per 100.

Heavenly Blue. 65c per doz.; \$4.50 per 100.

Plumosum (Plume Hyacinth). A very unusual and fascinating flower, bearing feathery plumelike flowers of rosy violet color. Blossoms in May. 85c per doz.; \$6.25 per 100.

Leucojum Vernum

LEUCOJUM VERNUM

(Spring Snowflake)

This is an early, and one of the most attractive spring flowers. They reach a height of approximately 6 to 8 inches, and bear dainty nodding flowers of white, tipped with green. They should be planted in early fall in a good, well drained soil, about two inches deep, and are especially effective if planted about 4 or 5 inches apart, in clumps. If undisturbed they will bloom year after year. \$1.00 per doz.; \$7.25 per 100.

IRIS RETICULATA (Fragrant Iris)

This lovely species is one of the treasures of the garden or rock garden. It can be described as a small form of the Spanish or Dutch Iris. Its main value lies in the fact that it can be forced into bloom in the house with the greatest ease. Six or eight bulbs put into a four- to five-inch pot when received will bloom about Christmas time. The fragrant blossoms remind one of a bunch of fresh violets. Perfectly hardy with reasonable protection. It is one of the loveliest early flowering bulbs for the rockery. 3 for 80c; \$2.65 per doz.; \$20.00 per 100.

Autumn Flowering IRIS

Flowering Two or More Times Each Season

We take great pleasure in offering a list of the finest fall bloomers in cultivation. While best results are secured with these Irises below the Mason-Dixon Line, with a little care we have obtained excellent fall bloom in Michigan. Some of the varieties listed not only bloom profusely early in spring, but under favorable conditions also produce crop after crop of flowers for more than 100 days in late summer and fall. There are as yet but comparatively few of these flowers in existence, and the demand has been so great that we, as well as the few other growers who have stocks of fall bloomers, could fill only a small proportion of the orders received last year. Please order early.

English IRIS

This magnificent mixture of bulbous English Iris has been developed at our own nurseries, and contains all the choicest varieties which can possibly be had in these fine Iris. The English Iris are a bulbous Iris which bloom in our latitude about the early part of July, and come after all other bulbous Iris. They should be planted as soon after the beginning of September as possible for best results. They prefer the more moist and heavier soils, and should have good drainage. The blooms of the English Iris are considered to be the finest of any in the Iris class, and each individual bloom is strikingly beautiful, and as cut flowers they are unsurpassed. We are offering them here in a fine mixture of colors. \$1.15 per doz.; \$8.00 per 100.

Dutch Iris

Dutch IRIS

A new and early flowering race coming into bloom just after the Tulips are gone. The flowers are large, resembling the orchids, and are distinctive and brilliant in color. Flowers are of heavy texture and when cut have wonderful keeping qualities. Bulbs should be planted in the fall, 5 inches deep, on well-drained soil, with slight protection after freezing weather sets in. Offered at new low prices.

Lilium Umbellatum Davuricum Erectum

Lilium Candidum

Lilium Speciosum Rubrum

Aristocratic Hardy

Beautiful — Fragrant

Place orders early. Most Lilies were formerly imported from Europe and Japan, and stocks of Domestic-grown Lilies are small, will soon be sold out. All orders will be filled in rotation as received. The stately, beautiful and fragrant Lily is one of the most desirable of all flowers. Plant them in groups in the flower border and shrubbery. Allow them a background of evergreens to display their stately beauty.

Lilium Auratum (Gold Band Lily). This is undoubtedly one of the finest of all the Lilies, with large, graceful and fragrant flowers of a delicate ivory-white color, spotted chocolate-crimson, and striped through the center of the petals with golden yellow. 60c each; 3 for \$1.65; \$6.00 per doz.

Lilium Candidum (Madonna Lily). Also known by many as "June Lilies." This is one of the oldest, loveliest and best known Lilies. It is the earliest white outdoor garden Lily. You have often admired it, with its rich perfume and snow-white flowers, from 3 to 15 on a stem. It is very hardy, and will thrive in any light garden soil, with plenty of light and air. Largest size bulbs, \$1.50 per 3; \$5.00 per doz.; \$38.00 per 100. Medium size bulbs, \$1.10 per 3; \$3.75 per doz.; \$28.00 per 100.

Lilium Elegans, Red. This variety should be planted in fall or early spring, 8 to 9 inches deep, in sunny situation. Flowers in June and July, producing lovely blossoms of a rich dark coppery crimson, with purple-black spots at base of petals. Attains a height of 18 to 24 inches, very effective. 45c each; 3 for \$1.20; \$4.50 per doz.

Lilium Henryi. A most elegant Lily discovered in Central China, producing handsome branching heads of twenty or more flowers of a soft orange-yellow color. Blooms August to September. A hardy and vigorous grower, reaching a height of 6 to 8 feet when established. Can safely be planted in cold climates, and are permanent. 55c each; 3 for \$1.50; \$5.00 per doz.

Lilium Michigansis. Graceful orange flowers; beautiful native Lily of Michigan. Under ideal conditions it grows from 6 to 7 feet high; very hardy, and easily established. 3 for 90c; \$3.00 per doz.

GARDEN LILIES

Lilium Paradalinum Californicum. Deep orange blossoms, spotted with maroon, large, recurved petals tipped scarlet. Blooms in July, hardy and robust, does well in any garden soil. Reaches a height of 7 feet, often carrying as many as 15 to 20 blossoms, with dark green foliage. Produces a succession of bloom for two or three weeks. 55c each; 3 for \$1.50; \$5.00 per doz.

Lilium Philippinense Formosanum (Green-Throated Lily). A new, very graceful Lily, producing very long and trumpet-shaped flowers. Inside pure white, with green throat; outside white shading to reddish brown, with reflexing petals, grassy foliage and slender stems. Blooms from July to September. Very fragrant, and free bloomer. 40c each; 3 for \$1.00; \$3.75 per doz.

Lilium Speciosum Album. Beautiful snow-white flowers with a golden green stripe through the center of each petal, and anthers of a coppery tint. One of the most beautiful Lilies we list. Very scarce. 75c each; 3 for \$2.10.

Lilium Speciosum Rubrum. White, tinted and heavily spotted red; the showiest Lily in this color class. 65c each; 3 for \$1.75; \$6.00 per doz.

Lilium Tenuifolium. A dainty little Lily with slender stems and grassy foliage, blooming in June or July, producing numerous showy scarlet flowers with reflexing petals. Prefer a sunny location in well drained soil. 3 for 80c; \$2.60 per doz.

Tiger Lily. A remarkable, handsome Lily of easy culture, producing an abundance of large, showy, brilliantly colored flowers in August and September; very hardy. Rich orange-scarlet flowers, spotted crimson-brown. Height 5 feet. 3 for 80c; \$2.75 per doz.

Double Tiger Lily. The double form of the single Tiger Lily. It is the best form of double Lilies today. Blooms in August and September. Height 5 feet. 3 for \$1.35; \$4.50 per doz.

Lilium Umbellatum Davuricum Erectum. A very free flowering Lily of easy culture, carries a large mass of light orange-red flowers. Prefers a cool, shady position. This variety is very scarce. 3 for \$1.35; \$4.50 per doz.

Lilium Tenuifolium

NEW! LILIAM DOWNII

Stokesia, Blue Moon

This new variety is of exceptional merit, being a vigorous grower and very free flowering. The enormous, dislike, light blue flowers are from 5 to 6 inches in diameter, growing on strong 12- to 18-inch stems, of easy culture and perfectly hardy. Blossoms during a time when garden flowers are scarce, producing from late summer until stopped by hard frost. 3 for \$1.50; \$5.00 per doz.

Gypsophila, Bristol Fairy

(Baby's Breath)

A sensational new development of the double-flowering Gypsophila, a very valuable cutting subject, with much larger florets in fuller panicles; the blooming season naturally longer, and possibly continuous all summer. Pure white, slightly blushed in cool weather. 50c each; 3 for \$1.35.

Heliopsis Scabra Excelsa

Chrome-yellow flowers, turning to bright yellow as they mature. These are almost double. The plant is about three feet high, and from mid-July to the end of September makes an effective display. 3 for \$1.50; \$5.00 per doz.

Perennial Plants

Fuchsia, Magellanica

Hardy Fuchsia, whose rosy-red, pendent flowers are produced by the hundreds, flowering just as freely in semi-shade as in full sun, as all other Fuchsias. They are well adapted for shady places. You will find them an interesting plant for the flower border, as well as the rock garden. Until the plant has been tried more universally we would advise covering with leaves during winter months, north of Philadelphia or Cincinnati. Do not plant in heavy clay soil. Any good, well drained soil will do. 3 for \$1.25; \$4.00 per doz.

Hemerocallis Hyperion (Day Lily)

The most outstanding variety of the newer Day Lilies. The flowers produced are a fine citron-yellow. Very profuse bloomer on strong stems 40 inches tall. Makes an ideal cut flower as buds open well in water. Delightfully fragrant. Blooms in July and August, either sunny or shady locations. Received an Award of Merit from Royal Horticultural Society. 75c each; \$7.50 per doz.

CUSHION CHRYSANTHEMUMS

A group of low-growing 'Mums, forming mounds of blooms reminding one of the old-fashioned Azalea. The plants grow about ten to twelve inches high and spread two feet or more. They start to bloom quite early, and are in full bloom in September, being literally covered with hundreds of flowers which last over a long period. With a little straw protection the plants are quite hardy. They all originated from Chrysanthemum Amelia, better known as Pink Cushion 'Mum.

Bronze Cushion. The bronze form with deep bronze flowers, turning to bronzy, coppery yellow. \$1.00 per 3; \$2.90 per doz.

Pink Cushion. Producing light pink flowers by the hundred. \$1.00 per 3; \$2.90 per doz.

Red Cushion. Outstanding new red form of the Cushion 'Mum. \$1.35 per 3; \$3.75 per doz.

White Cushion. While opening as a delicate pink, the flowers turn pure white as they develop. \$1.00 per 3; \$2.90 per doz.

Yellow Cushion. The yellow form of the Cushion 'Mum. Pure golden yellow, hundreds of blooms, and long lasting. \$1.00 per 3; \$2.90 per doz.

Nature's Way to a Productive Soil

Superior Brand Peat Moss

Plants are living, growing things, and need a congenial environment. This means a favorable climate, and more important still, a correct soil. Soil is made up of two kinds of material; mineral or inorganic; and vegetable or organic. Both are essential sources of plant food, but the organic material (called humus) plays by far the most important part. Peat Moss is the most desirable type of humus known. It is pure vegetable matter that improves soils that are too sandy by giving them body and coherence, and it gives life and porousness to heavy soil.

Superior Brand Peat Moss is excellent as a mulch. A layer of the loose, fluffy material on top of the ground will greatly check evaporation. Applied from one to five inches deep it conserves soil moisture and prevents erosion. In winter it protects plant roots from severe cold.

Superior Brand Peat Moss is sold in bags, each containing two bushels. We will ship by freight, charges collect, unless you instruct otherwise. Shipping weight per bag of two bushels, about 50 pounds.

1 bag (two bushels)	99c		
2 bags (four bushels)	\$1.77	4 bags (eight bushels)	\$3.37
3 bags (six bushels)	\$2.57	1 cubic yard (22 bushels)	\$6.50

2-Way Money-Saving. Two bags (about 100 lbs.) can be shipped as cheaply as one bag, since freight companies make no reductions under 100 pounds; thus you save on freight when two bags are ordered. And when you order two bags you pay only 78c for the extra bag. Order two or more bags, and save money.
